

Apollo's Medical Cannabis Guide

Why Apollo?

Apollo Cannabis Clinics is an evidence based cannabis clinic.

Apollo started and continues to be a passion project, motivated by listening to and empowering patients in their healthcare choices to retain a higher quality of life.

Apollo is a philanthropic organization dedicated to utilizing evidence-based research to continuously validate patient treatment recommendations, share those results with the world, and ultimately change norms in the healthcare community.

How does cannabis work?

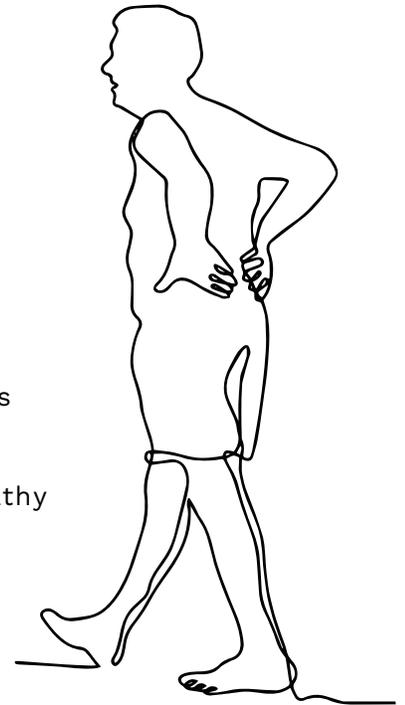

The active ingredients in cannabis act on specific receptors called cannabinoid receptors which are located throughout the body. Research studies have shown that these receptors control various symptoms including pain, inflammation, your sleep/wake cycle and much more.

What can cannabis help treat?

Medical cannabis can be used to treat a wide range of medical conditions including, but not limited to:

- ▶ Chronic Pain
- ▶ Sleeplessness
- ▶ Arthritis
- ▶ Cancer
- ▶ Fibromyalgia
- ▶ Migraines
- ▶ Parkinson's
- ▶ ADHD
- ▶ Anxiety
- ▶ Depression
- ▶ PTSD
- ▶ Multiple Sclerosis
- ▶ AIDS/HIV
- ▶ Lower Back Pain
- ▶ Diabetic Neuropathy
- ▶ Crohn's Disease
- ▶ Neuropathic Pain
- ▶ Nausea
- ▶ Inflammation
- ▶ Seizures

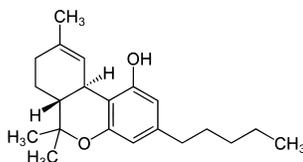

Medical properties of cannabis:

Tetrahydrocannabinol (THC)

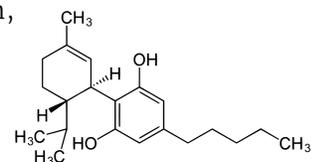

helps treat pain, PTSD, depression, nausea, sleep related issues and much more. Depending on its percentage strength, THC strains can cause **psychoactive** effects.

Cannabidiol (CBD)

is **non-psychoactive**. It helps to reduce inflammation, reduce anxiety, aid with poor sleep, relieve chronic pain and can even treat seizures & more.

How to Become a Patient:

Contact us to set up an appointment

Contact us today and our friendly staff will assist in scheduling an appointment, in clinic or by secure video call. No referral needed.

Medical cannabis consultation

Apollo's healthcare practitioner will assess you & your condition to ensure Medical Cannabis is a suitable treatment option for you.
